Altstätten, 25 March 2025

COLTENE Group launches new innovations at IDS 2025

COLTENE Group, a leading international developer and manufacturer of consumables and small equipment for dental solutions, announces the launch of new innovations in infection control, endodontics, and restorative dentistry at the International Dental Show (IDS), one of the world's largest dental fairs. Our advanced solutions enhance clinical outcomes, optimize workflow efficiency, and ensure instrument sterilization in compliance with regulatory standards, all while supporting sustainability in modern dental practice.

We are proud to introduce six new solutions designed to enhance dental treatments and practice efficiency: **HySolate Liquid Dam** provides advanced gingiva protection, while **Kenda ShapeGuard** offers a next-generation polishing system. For endodontic procedures, **MicroMega One Glider & RECI Glider** ensure a reliable glide path. **Roeko Gelatamp forte & white** support effective hemostasis, and **BRILLIANT Lumina** delivers a gentle, hydrogen peroxide-free tooth whitening solution. These innovations reinforce COLTENE Group's commitment to advancing clinical outcomes and optimizing modern dental workflows.

Dominik Arnold, CEO COLTENE Group:" At COLTENE Group, we understand that dental professionals demand safe, efficient, and precise solutions. Our six new innovations launched at IDS 2025—from advanced gingiva protection with HySolate Liquid Dam to next-generation polishing with Kenda ShapeGuard and reliable endodontic glide path tools—demonstrate our commitment to enhancing clinical outcomes and streamlining workflows. I am confident these products will empower dental practitioners worldwide to deliver superior care while preserving natural teeth."

COLTENE Group is one of only two global companies with a specific focus and capability to provide solutions for the entire endodontic treatment process through complete restoration with our E2R (Endodontics to Restoration) approach. Our goal is to preserve as many natural teeth as possible by offering dental professionals everything they need for safe, simple, and efficient treatments. These new innovations further underscore our commitment to delivering comprehensive, high-quality solutions to our customers and partners.

COLTENE will be presenting its innovations at IDS Hall 10.2, Booth P10 / R19. To download all materials, please use this link: [Press & Download](#).
